Hi Brad

Thanks for forwarding. There is no precedent for decommissioning or moving a non-attainment monitor.

Hi Brad-

Wondering if you saw this article today:
http://host.madison.com/wsj/news/local/govt-and-politics/scott-walker-signs-bills-on-guns-wetlands-drunken-driving-smog/article_5d64e870-82bf-515f-8455-32d0eb5d97bb.html

“Walker also signed a bill blocking the state Department of Natural Resources from recording air pollution data gathered by a monitoring device in Kohler-Andrae State Park in Sheboygan County. Walker and other Republicans say it's unfair that federal law requires limits on ozone in the eastern part of the state because some of the pollutants come from Illinois and Indiana.”

Jean
